

Power Distribution Unit - Expert PDU energy 8001

Tri-phase models for 16A or 32A energy metering will be available from Q2/2011.

Electrical Connections

- 1 Power Input (IEC C20,max. 16A)
- 2 Power outputs (IEC C19 , max. 16A)
- 8 Power outputs (IEC C13, max. 10A))
- Ethernet connector RJ45 (10/100 MBit)

Technical Details

- 19 inch, 1 RU
- Weight: ca. 2kg
- Operating temperature: 0-50 °C (non-condensing)

Features

- Metering of energy, current, voltage, actual Spannung real power and apparent power
- LC Display
- Overload alert: acoustic, optical, and via Syslog
- 19" device for server racks (1 RU)
- Quick and easy plug 'n' play installation
- Easy and flexible configuration via webbrowser or Windows software GBL_Conf
- Platform independent operation via webbrowser
- Syslog supported
- SNMP (SNMPv1, SNMPv2c) supported
- Firmware update via Ethernet during operation
